Skilled MEAN stack developer with 4 years of experience in building scalable web applications and RESTful APIs. Proficient in front-end and back-end development, with strong problem-solving skills and a commitment to quality. Effective collaborator in dynamic environments.

EXPERIENCE

Software Engineer
SHC Technologies
12/2023 - 08/2024 | Hydrabad, India

Responsible for developing and implementing software applications
- Designed and implemented a new software application, improved coding practices, and incorporated new updates according to client requirements.
- Collaborated with the product team to understand their requirements and tailor-made solutions that helps to increase product functionality.

Software Engineer (MeanStack)
Q3 Technologies Limited
09/2022 - 10/2023 | Gurgaon, India

Assisted in the design and development of software applications
- Application 1 => The application provides comprehensive nutrition solutions and benefits, offering personalized diet guidance tailored to the nutritional requirements of different countries. It is a highly scalable project, ensuring exceptional code quality.
- Application 2 => I work as a Frontend Developer for an eCommerce company specializing in selling diamond products. The application is built using the MEAN stack. My responsibilities include creating API integrations and optimizing code using Angular.

Associate Software Engineer
Oodles Technologies
08/2021 - 08/2022 | New Delhi, India

Created Base Application on Angular
- Application 1 => Developed a Project Based on Virtual Reality in Angular, which uses Unity features to give us a 3D virtual platform to communicate with their Client and User.
- Application 2 => Also worked on another application based on Nuxt js which is used to help on crypto exchange solution, It was monarch application.

Associate Software Engineer
Vorac Innovation Labs
07/2020 - 12/2020 | Jaipur, India

Service based company.
- I developed an online dating application designed to help people connect, interact with new users, and build friendships. The application includes features such as chatting and various social interaction tools.

INTERNSHISPS

Firki Wholesale Pvt Ltd. (Daily Objects)
https://www.dailyobjects.com/
01/2020 - 06/2020 | Gurgaon

This company is product-based and focuses on a complete eCommerce platform. Here, I have learned about the Angular platform and have kept up with the updates to their application.

EDUCATION

Bachelor's in Computer Technology
JK Lakshmipat University
2016 - 2020 | Jaipur, Rajasthan

SKILLS

Javascript | Angular | NodeJs | React | Nuxt | HTML | Typescript | Github | REST | AWS Deployment

STRENGTHS

⚡ Problem-Solving
Demonstrates strong analytical abilities to identify and resolve complex software issues efficiently. Proactively anticipates potential problems, applying innovative solutions to ensure smooth project delivery.

🎖 Collaboration
Led a cross-functional team of four developers in the successful execution of a critical project on time and under budget.

✔ Adaptability
Quickly incorporated new software updates in all projects, ensuring minimal disruption to workflow and maintaining project schedules.

CERTIFICATION

IBM Big Data Analytics (2016 – 2020)
Completed an advanced IBM BDA course from Coursera.

INTRESTS

⭐ Development
Enjoy building and optimizing software applications, always on the lookout for new programming languages and techniques to learn.

💎 Basket Ball
Likes to play outdoor game with friends more often on my free time.
